

SC-LC-APC Singlemode Patch Cord

Patch Cord SC-LC-APC, 900µm LSZH Tight Buffer

Infinique's SC-LC-APC Singlemode Patch Cord are pre-polished in the factory and have been designed for high quality termination. Fitted on both sides with Angled Polished Connectors, the connector housing and shutters fully protect the ferrule against dust, dirt and scratching. Each patch cord passes the stringent 400x visual inspection and are tested for insertion and return loss before being individually packed with the test report.

Bend-insensitive, G.657A1 LSOH Singlemode TB Fiber is used in the manufacture of patch cords that assures low bending loss and protection against accidental tight bends down to 7.5 mm radius.

To confirm high performance and reliability, these patch cords are tested and certified as per Telcordia standards GR-326, Generic Requirements for Single-Mode Optical Connectors and Jumper Assemblies.
